OBJECTIVE

Aspiring Front-End Developer and final year BCA student with a passion for creating user-centric and responsive applications. Eager to leverage my growing expertise in web development to contribute to innovative projects. Committed to continuous learning and collaboration in dynamic environments to deliver impactful solutions.

EDUCATION

Sarvodaya Bal Vidyalaya (CBSE Board)

June 2019 - May 2022

Secondary & Senior Secondary School

- Successfully completed Class 10 with a solid score of 62%
- Graduated Class 12 with a respectable percentage of 56%

Guru Gobind Singh Indraprastha University (FIMT Collage)

Aug 2022 - Aug 2025

Bachelor of Computer Applications (BCA)-- GPA: **8.406**

SKILLS SUMMARY

- Markup & UI:** HTML5, CSS3, Tailwind CSS, Shadcn/UI
- Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js
- Databases:** MongoDB, SQL
- Development Tools:** NPM, Git, Postman, Insomnia, Appwrite, Firebase
- IDEs & Platforms:** Visual Studio Code, IntelliJ IDEA
- Programming Languages:** JavaScript, TypeScript
- Soft Skills:** Problem-Solving, Communication, Time Management

WORK EXPERIENCE

IBM Skill Build Front End Developer Program

20 June 2023 - 28 July 2023

- Hands-on Project Experience:** Completed a project using front-end skills in a real-world context.
- Skill Enhancement:** Advanced proficiency in HTML, CSS, JavaScript, React.js, and Tailwind CSS.
- Practical Application:** Developed responsive, user-friendly web interfaces and solved complex design challenges.
- Learning Opportunities:** Learned industry best practices, modern tools, and workflows.

G20 Program - Front-End Website Design Competition (FIMT)

22 Sep 2022

- Competition:** Participated in the college's G20 front-end website design competition.
- Achievement:** Secured the first prize, showcasing outstanding front-end development skills.
- Leadership:** Successfully led the team to victory through effective collaboration and innovative design solutions.
- Impact:** Demonstrated strong ability in creating engaging and effective web interfaces, setting a high standard for future projects.

PROJECTS

Netflix Clone

30 June 2024 - 20 July 2024

I developed a Netflix clone using React.js and Tailwind CSS, featuring user authentication, movie browsing, and dynamic data fetching via an API. The app is now built with React for the frontend, Appwrite for backend authentication, and API integration for movie data.

Personal Portfolio

22 July 2024 - 2 Aug 2024

I created my personal portfolio using React, Next.js, and TypeScript for performance and scalability. With a modern design powered by Aceternity UI, it showcases my projects and skills, offering an engaging experience with smooth transitions and responsive layouts. It's a platform for sharing my journey as a Front-End Web Developer.

Health care Project

20 August 2024 - Ongoing

Created a healthcare application using React and Next.js that simplifies appointment management. Users can easily schedule, reschedule, and cancel appointments, while healthcare providers can access medical records and communicate securely. The responsive design ensures a seamless experience across devices, enhancing patient and provider interactions.
